THE SMARTER CHOICE FOR YOUR MODERN SPACE

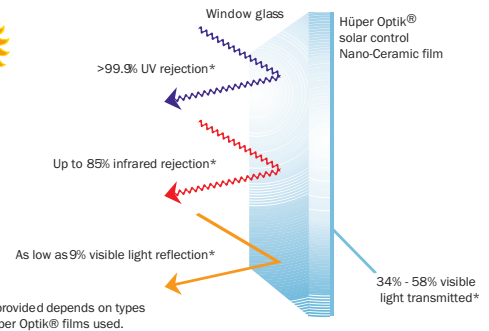

The Smarter Choice: Nano-ceramic Films

Let your home or office come to life. Accentuate your interior design with the beauty of natural light without the heat. Hüper Optik® introduces the world's first nano-ceramic solar control films that provide the utmost in comfort, performance, aesthetics and security, while maintaining a clear view.

Hüper Optik® patented window films optimally reject infrared light rays, the main cause of heat, while reducing the glare from the outside world to a comfortable level. This effectively cools down the space, improves the ambience and at the same time protects the furniture and furnishings from fading.

The unique ceramic coatings on Hüper Optik® films not only offer superb durability, they reduce energy consumption, giving a positive return on your investment year after year. Hüper Optik® nano-ceramic films can be used in a myriad of applications for commercial and industrial buildings, storefronts and residences.

Cool Comfort

- High total solar energy rejection of up to 61%
- Enhances interior comfort with reduced glare - cooler and more comfortable living environment

German Protection

- High ultraviolet rejection that exceeds 99.9%
- Protects occupants from the sun's harmful radiation
- Slows down the fading process of interior fixtures and furnishings
- Improves shatter resistance, creating a safer environment

Superb Durability

- 100% dye-free and metal-free; avoids demetallization or discoloration
- Tested for UV degradation beyond the expected life cycle of both conventional dyed and metallic films
- Residential limited lifetime and commercial fifteen-year limited product warranty

Classic Aesthetics

- Enhances overall aesthetics with a soft veil of European luxury
- No garish metallic or shiny effects that cause light pollution
- Low "mirror-like" effects, allowing a spectacular view of the outside world

Energy Savings

- Provides significant heat reduction, lowering air conditioning cooling load and energy consumption
- Prolongs life span of air conditioning system and reduces utility bills

Professional Installation

- National Dealer Network Program with experienced authorized dealers committed to professionalism in service and quality installation, meeting the customers' requirements for optimal solar control solutions

*Hüper Optik® films are in compliance with the building authority regulations in window film applications and visible light reflectivity requirements in most countries.
