

In addition to restoring graffiti damaged glass by removing glass scratches, tagging, acid etch graffiti or hard water stains, we also install a clear anti-graffiti film protecting the glass surface from future graffiti vandalism.

We also apply EDGE Graffiti Barrier to building surfaces a zero VOC, water based clear coat that creates a permanent barrier on concrete, masonry, stucco, metal, wood that will withstand many graffiti removal processes and carries a 20 year product manufacture warranty.

Glass Scratch, Acid Etch, Tagging Removal System

Seattle City Foundation Building: Anti Graffiti Film
